# THE ORIGINAL

## AND STILL THE BEST

---

1927, the mattress filling room at Willesden factory, London.

2012, Queen's Award for Enterprise.

At the turn of the 20th century, an English engineer named James Marshall decided to offer his wife the most precious gift of all – a perfect night's sleep. By pioneering the use of pocket springs, the Vispring mattress redefined bed design: its individually pocketed springs offered independent cushioning and support to usher in unparalleled levels of comfort. Its high quality natural fibres and side vents allowed air to circulate freely, making it cleaner and fresher than any previous bed.

For over a century, Vispring has become synonymous with comfort and luxury. At its factory in Plymouth, in

the South West of England, its mattresses and divans are still crafted by hand, to order.

Our beds have acquired pride of place in the staterooms of legendary ocean liners, the suites of fabled hotels and the bedrooms of the finest homes, establishing themselves as the reference for people of taste. Today, Vispring continues to create the very best beds in the world.

A Vispring Hotel Bed is much more than a supremely comfortable mattress. It is an investment in the reputation of your business.

# VISPRING HOTEL RANGE

## THE HOTEL SUBLIME MATTRESS

Simply the finest expression of the world's finest hotel beds. Ultimate luxury is created from hand-teased South American horsetail and Shetland fleece wool. Thanks to these noble fibres' unique nature, the Hotel Sublime combines sensuous softness, outstanding climate management with a satisfyingly supportive feel. Sublime by name, sublime by nature.

# ZIP & LINK MATTRESSES

Vispring Zip & Link beds combine any of our single sprung-edge divans into one large sumptuous bed. A double room becomes a twin at the pull of a zip, and Zip & Link makes it easy to get an impressively large bed into rooms with awkward access. The optional face-mounted divan link also makes separating the bases a simple task.

# HANDMADE TO ORDER

REFINED BY THE HAND OF MAN

---

Making the springs.

Hand-nesting.

Assembling the fillings.

Genuine hand side-stitching.

Finest natural fillings.

Hand-tufting.

Vispring has never wavered from its original philosophy of using the best craftsmanship and quality materials to produce the finest beds in the world.

Producing its own springs from the best Vanadium steel, Vispring has refined the subtle combination of spring size, tension and resilience in order to offer perfect support.

The finest natural fibres used in each bed are expertly selected and blended to provide ultimate softness and comfort. British fleece wool, horsehair and cotton

and exquisite natural fillings such as silk and mohair compose a palette of unparalleled refinement and offer a rich variety of sensations, enabling Vispring to create a mattress to suit every taste.

Once these have been hand-teased and laid over the springs, each mattress is hand side-stitched, finished with exquisite fabric and embroidered with the Vispring name as a signature of quality and expertise.

Selected Vispring mattresses are available with M-Pure - a pure and natural fire retardant solution.

**M-Pure**  
PURE AND NATURAL FR
